

The DBG DB Series Power Connectors set the standard for robust & reliable power transmission across a wide range of industries including automotive, industrial, and the renewable energy sector - most commonly used in battery systems, electric forklifts, golf carts, and other mobile equipment that require efficient and durable power connections. Compatible with comparative Anderson SB Connectors.

- » High current capacity
- » Versatile genderless design
- » Ergonomic housing
- » Colour-coded housings
- » Robust construction
- » Quick and secure connection
