

These 1-LED marker lights have the additional benefit of being suitable for light mounting bars for extra convenience. The markers can also be mounted onto a flat surface depending on the rubber mount used. The light is also built to be shockproof, airtight, and resistant to hard weather conditions.

- » Clear lens with coloured LED
- » Fly lead connection
- » Light mounting bars or flat surface mount
- » Current draw: 0.03A @12V / 0.02 @ 24V
- » Power consumption: 0.4W @12V / 0.8W @ 24V
- » -40°C to +55°C operating temperature
- » ECE R10, E Marked
- » Supplied with rubber for light mounting bars, and rubber for flat surface mounting
